christianity and the culture machine is a precedent shattering approach to combining theories of media and culture with theology in this intensive examination of christianity s role in the cultural marketplace the author argues that christianity s inability to effectively contest the ideology of secular humanism is not a theological shortcoming but rather a communications problem the institutional church is too wedded to an outmoded aesthetic of christianity to communicate effectively privileging authority and obedience over the egalitarian and transformative goal of christianity the church fails to recognize how it undermines the vitality of the christian narrative and message in the absence of a more compelling vision offered by the official church a new aesthetic can be found forming within the margins of popular culture texts despite its past failures in representing the bible in mainstream film and television the culture industry now offers more compelling versions of core christian theology without even realizing it within the margins of the main storylines this book analyzes the aesthetic principles employed by these appropriations and articulations of christian discourse as a means of theorizing what a new aesthetic of christianity might look like

many of the revolutionary effects of science and technology are obvious enough bertrand russell saw in the 1950s that there are also many negative aspects of scientific innovation insightful and controversial in equal measure russell argues that science offers the world greater well being than it has ever known on the condition that prosperity is dispersed power is diffused by means of a single world government birth rates do not become too high and war is abolished russell acknowledges that is a tall order but remains essentially optimistic he imagines mankind in a race between human skill as to means and human folly as to ends but believes human society will ultimately choose the path of reason this routledge classics edition includes a new preface by tim sluckin
